Pennsylvania State House
Harrisburg, PA 17120

Dear Representative:

I am writing to urge your support for the **Family and Business Health Care Security Act** (HB1660), which offers true universal healthcare reform in Pennsylvania. It is past time we do something about our health care crisis, which is daily claiming the lives, homes, and livelihoods of hard-working citizens.

I am sure you share my concern for the many under- and uninsured voters in your district and across the state, and would favor a reform plan that protects as many of them as possible. Your support for HB1660 would be a powerful and principled demonstration of your concern. Thank you.

Sincerely,
